STUDIO ABOUT HANGING BUBBLES

The Hanging Flower Bubble and Hanging Plant Bubble collections are two series of beautiful and unique handcrafted vases in borosilicate glass, designed by architect Mikkel Lang Mikkelsen.

The simple yet powerful form of the glass sphere emphasizes the contrast between the organic beauty of the flowers/plants and the precise and elegant shape of the object.

By hanging the vases, we create an opportunity where the objects can be installed in new positions with the optimal conditions regarding light and shadow.

AW24

SPEC

All vases from Studio About are mouth-blown in colored borosilicate glass, the same type of glass used in laboratories.

Strong and scratch-resistant.

Coloured throughout.

Can withstand boiling water.

Can be cleaned with vinegar.

Avoid limescale by using pre-boiled water or demineralized water.

Use a toothbrush for cleaning the hanging flower bubbles.

See size specifications under each individual product.

Small variations in the colour may occur.

Design by architect Mikkel Lang Mikkelsen.

AW24

STUDIO ABOUT STANDING BUBBLES

A series of mouth-blown vases in solid coloured glass. The vases consist of a transparent cylindrical base and a coloured bubble that forms the vase itself. The small solid coloured-glass vases have a simple and classic look that fits naturally into the Nordic decor.

The simple yet powerful form of the glass sphere emphasizes the contrast between the organic beauty of the flowers/plants and the precise and elegant shape of the object. The transparent stand creates a floating effect where the sphere appears to be suspended in the air. Furthermore, the glass sphere filled with water creates a vibrant play of light on the surface.

AW24

SPEC

All vases from Studio About are mouth-blown in colored borosilicate glass, the same type of glass used in laboratories.

2 piece vase.

Strong and scratch-resistant.

Coloured throughout.

Can withstand boiling water.

Can be cleaned with vinegar.

Avoid limescale by using pre-boiled water or demineralized water.

Use a toothbrush for cleaning the hanging flower bubbles.

STUDIO ABOUT

AW24

STUDIO ABOUT FLOWER TUBES

The FLOWER TUBE collection is a series of cylindrical glass vases made to perfectly carry a small bouquet or a few individual flower stalks. The versatile glass vase adds elegance to a beautifully set table but also stands beautifully in a small still life with trinkets and vintage finds.

A strong, minimalistic and simple design, the characteristic floating bottom gives the vase a light and elegant feel, while allowing reflections and light to pass.

AW24

SPEC

All vases from Studio About are mouth-blown in colored borosilicate glass, the same type of glass used in laboratories.

2 piece vase.

STUDIO ABOUT BUBBLE TUBES

The Bubble Tube collection consists of a series of handcrafted glass vases designed to hold a big flower bouquet. The fusion of the round and cylindrical design of the glass vase also allows it to stand on its own - the glass will throw colorful shadows and give your home a bright and playful glow.

A clean and straightforward design is enhanced by the distinctive floating bottom, imparting a sense of airiness and sophistication to the vase while allowing reflections and light to pass through. The bold complementary two-tone design allows the two parts to interact in a playful symbiosis, creating a spectrum of colours.

STUDIO ABOUT BOUQUET TUBES

The glass vase explores dimensions and colors. This vase consists of three parts in solid-coloured glass and is designed by architect Mikkel Lang Mikkelsen. The vase's minimalistic and uncomplicated design is elevated by its unique floating base, providing both an elegant, airy quality and allowing for the transmission of reflections and light.

AW24

STUDIO ABOUT LINK CANDLE HOLDER

The series of LINK candle holders are a collection of modular candle holders that can be used and placed individually or put together forming one larger candelabra. Made of aluminium in four different colours, each package includes three LINKS modules, accommodating a total of four candles. The design is versatile, allowing transformation to suit any space or occasion. The intention is for the design to evolve and grow over time, being modeled and remodeled into endless formations.

The candlestick adheres to standard dimensions and is suitable for regular candles.

AW24

SPEC

Modular aluminium candle holder.

4 colors: Matte silver, polished silver, black, and matte gold.

The candle holder is made of surface-treated aluminium.

Protects the metal against rust and UV rays.

Colour resistant.

Set of three in one box, that means you can use 4 candles pr. package.

Remove wax by placing them on a rack in the oven at 60-80 degrees Celsius for about 15 minutes.

Design by architect Mikkel Lang Mikkelsen.

STUDIO ABOUT PAPER FLOWERS

There are a total of 4 collections of our paper flowers, which are made in collaboration with Danish paper artist Kristina Rasmussen and Studio About. The different flowers are inspired by nature.

Paper flowers are versatile and long-lasting. Use the paper flowers individually or arrange them into bouquets. You can use your paper flowers just as you would use a natural flower.

AW24

SPEC

Delivered in a solid paper tube.

Made of crepe paper.

You decide how you want your flower to look.

The stem is made of a steel wire.

Follow these 3 steps to fully unfold it:

Gently grasp the flower head inside the box and pull it out.

Spread the petals of the flower.

To create more fullness, you can gently run your thumb along the center of a petal, this way they become more curved.

Designed in a collab between Studio About and Kristina Sørensen from LabDecor.

STUDIO ABOUT PAPER FLOWERS BOUQUET

An easy choice is our “grab and go” bouquets. Gentle arranged bouquets of delicate paper flowers. Decide the look of the flowers; if they should be fully bloomed or just partially. They are designed as a collaboration between Studio About and the Danish papercraft designer Kristina Sørensen from Lab Decor.

AW24

SPEC

9 different bouquets.

Made of crepe paper and a steel wire.

Gently wrapped in solid thick paper.

You decide yourself how you want your flower to look.

Follow these 3 steps to fully unfold the flowers:

Gently grasp the flower head inside the box and pull it out.

Spread the petals of the flower.

To create more fullness, you can gently run your thumb along the center of a petal, this way they become more curved.

Designed in a collab between Studio About and Kristina Sørensen from LabDecor.

STUDIO ABOUT FRAMELESS

The design is a modern interpretation of the classic frameless “skifteramme”, but without a front or back-side it can be used hanging freely in a space. The double transparent minimal structure allows the frame to play with the transparency of the artwork represented within.

Furthermore, it can be hung in front of windows etc.

“We have tried to find a simple but aesthetic solution that facilitates the function of the frame and at the same time provides new possibilities for the use of the object”, Mikkel, the designer.

AW24

SPEC

7 different colours.

Chicago screws are used to hold the frame together and can also function as nails.

Transparent acrylic frame.

UV- filter in the front frame.

Clean with glass cleaner.

Delivered in a flat cardboard box.

Foil on the front and back to protect against dust and scratches, to be removed before hanging.

Design by architect Mikkel Lang Mikkelsen.

STUDIO ABOUT PAPERCUTS

PAPERCUTS is a collaboration with the Danish designer Little Detroit. The elegant papercut plays with light and shadow, and it creates variety for the picture wall and the home. You can use them in your existing frames or take advantage of the paper cuts' elegance by putting them in our transparent acrylic frames from the FRAMELESS collection.

AW24

SPEC

11 different colours and shapes.

Made of 200 gr paper.

It's a cut and not just printed.

Packed in a hard envelope.

Easy to send.

Designed in a collab between Studio About and Little Detroit

STUDIO ABOUT CLAYWARE

The clayware is beautifully crafted and is a testament to our dedication to quality and detail. With their partially glazed surface and raw, unglazed exterior, the entire collection is a mix of the rustic and the modern. Add a sense of luxury and use a playful approach with our clay pieces.

The collection in clay contains: Cup, Bowl, Dinner plate, Lunch plate, Serving dish, Serving bowl.

The story of the collection unfolds between the tactility and natural colour of the clay and the contemporary and clean feel of the high glossy complementary colored parts. The understated shapes are sampled from the classic Nordic traditions of Danish porcelain and clayware design.

AW24

SPEC

The collection in clay contains: Cup, Bowl, Dinner plate, Lunch plate, Serving dish, Serving bowl.
Various types of clay and glaze have been used.

The Terracotta and Sand versions are unglazed on the outside and edges, and will therefore patinate over time.

Set of 2, except for Serving dish and bowl.

Resistant to: Dishwasher, microwave, freezer, food, and acid.

Not resistant to: Oven.

Variations may occur due to the firing.

Design by architect Mikkel Lang Mikkelsen.

STUDIO ABOUT GLASSWARE

We strive to offer glasses that are not only beautiful and practical but also inspiring and unique. Our glasses are designed with thoughtfulness that makes them something special. Our collection is a perfect balance of form and function, and our glasses add a subtle elegance to any decor and any drinking experience. The minimal geometric shapes and coloured glass is a direct extension of the Studio About universe and design approach where form follows function, and all objects are an experiment within the tension between functionality and beauty - we strive to reduce any design into its core.

AW24

SPEC

The collection consists of 3 wine glasses and 5 water glasses in different colours.

Wine glasses: Set of 2. Ø 70 MM HEIGHT: 177 MM, 25 CL.

Water glasses: Set of 2. Ø 65 MM, HEIGHT: 110 MM, 25 CL.

Coloured borosilicate glass. Strong and scratch-resistant.

Can be cleaned with acetic acid for stubborn limescale.

Resistant to: dishwasher, boiling water, and sulfite.

Not resistant to: Oven.

Design by architect Mikkel Lang Mikkelsen.

STUDIO ABOUT FLEX TUBE

Create decorative and artistic patterns with the innovative Flex Tube from Studio About. You can shape and bend the lamp with its movable design to create a unique eye-catcher or centerpiece that lights up your home and brings movement and life to your space. This Flex Tube is in a warm whitish colour, giving you plenty of opportunities to create an impressive light installation. The lamp is designed by architect Mikkel Lang Mikkelsen. The open-ended and abstract design invites you to explore the endless possibilities. This is truly a design that underlines what Studio About is about. We supply the tool for you to unleash your creativity and explore your personal style and understanding of aesthetics – urban aesthetics.

AW24

SPEC

LED light.

Colour: Warm white, Red, Pink, Blue.

The lamp comes in two different lengths, 5M and 9M.

Diameter of the light source is 16MM.

4 meter of white cord with a round EU-plug (both sizes).

Made of silicone.

Burn time of 20.000 hours.

Lumen: 2000 L.

Watt: 40W.

Kelvin: 3000K.

Volt: 220 V.

Plug: Round EU-plug.

Waterproof and can therefore be used outdoors.

CE marked.

Includes clips for the wall.

Dimmable.

Design by architect Mikkel Lang Mikkelsen.

STUDIO ABOUT FLEX MOUNT

Flex Mount is an innovative and modern form of led- light source which is mounted to the wall or ceiling. The lamp can contribute to creating a creative and artistic expression in your home. Our Flex Mount is soft and movable, and creates an aesthetic and unique eye-catcher. Flex Mount has a warm whitish color, which gives a pleasant glow in the room. It is designed by Mikkel Lang Mikkelsen from Studio About. With its minimalist design and warm light, the lamp is the perfect fusion of the stylish, the functional and the aesthetic. The light installation is the ultimate lighting for those who want a modern and aesthetic life-style. It is an innovative designer lamp and a work of art that still provides efficient light.

STUDIO ABOUT FLOAT

Studio About is proud to present FLOAT, our first piece of furniture. With our new donut-shaped seating puff available in 9 different colour combinations and three different sizes, FLOAT adds both a stylish and modern twist to the decor while providing a comfortable seating option to suit any taste.

This new inflatable seating puff from Studio About helps bring a warm and cozy atmosphere into the room. Designed to be versatile, it is ideal for use in various settings, whether in a children's room, living room, or office. Use it for sitting, resting your legs or lounging.

The design has an inflated structure within, making it both comfortable and soft to sit on. Constructed with soft materials, it provides a feeling of relaxation and coziness no matter the occasion. Its lightweight and therefore easy to transport between rooms.
